

Acadia National Park Vegetation Map Class for Mixed Conifer Woodland

The map class "[Mixed Conifer Woodland](#)" is composed of the following vegetation associations, each described separately:

- [Cedar Seepage Slope](#)
- [Spruce - Fir Rocky Summit](#)
- [Red Spruce Talus Slope Woodland](#)
- [Black Spruce / Heath Rocky Woodland](#)

The Mixed Conifer Woodland map class (MCW) is a variable class encompassing woodlands dominated by red spruce, white pine, or a mixture of conifers. Canopy cover is generally <60%. Bare rock and heath shrubs are evident.
