Title: Park Boundary of De Soto National Memorial Vegetation Mapping Project

Geospatial_Data_Presentation_Form: vector digital data

Online_Linkage: <http://biology.usgs.gov/npsveg/ftp/vegmapping/deso/desogeodata.zip>

Description:

Abstract: The boundary for DeSoto National Memorial.

Purpose: The intended use of all data in a park's GIS library is to support diverse park activities including planning, management, maintenance, research, and interpretation.

Access_Constraints: None

Use_Constraints: The data is intended for use as a tool for display and general GIS analysis purposes only. It is in no way intended for engineering or legal purposes. The data accuracy is checked against best available sources which may be dated. NPS assumes no liability for use of this data. Boundaries from the Land Resources Division have separate polygons for each type of unit. For example Denali National Park and Denali National Preserve are separate individual polygons.

Land Resources Division has been creating hardcopy segment maps containing boundary data since the 1960's. This data is currently being converted to a digital vector format and added to the collection as it become available. Additionally as existing boundary data is modified and/or new parks units units are acquired they are added to the collection.

Process_Step:
Process_Description: Boundary polygons for one-hundred and sixty units were verified data from the Lands Resources Division (LRD) according to the procedures defined in the Lands Acquisition Procedures Manual Chapter 5. Boundary data from LRD has separate polygons for individual types of units like Denali National Park and Denali National Preserve. Lands records in the dataset that can be identified by querying for [GIS_Notes] = "Lands" in the attribute table. These parks include: Abraham Lincoln Birthplace National Historic Site (ABLI), African Burial Ground National Monument (AFBG), Alagnak Wild River (ALAG), Alibates Flint Quarries National Monument (ALFL), Andrew Johnson National Historic Site (ANJO), Aniakchak National Monument and Preserve (ANIA), Antietam National Battlefield (ANTI), Appomattox Court House National Historical Park (APCO), Arches National Park (ARCH), Arlington House - Robert E. Lee Memorial (ARHO), Aztec Ruins National Monument (AZRU), Badlands National Park (BADL), Bering Land Bridge National Preserve (BELA), Black Canyon of the Gunnison National Park (BLCA), Boston Harbor Islands National Recreation Area (BOHA), Bryce Canyon National Park (BRCA), Brices Cross Roads National Battlefield Site (BRCR), Brown v Board of Education National Historic Site (BRVB), Buck Island Reef National Monument (BUIS), Buffalo National River (BUFF), Cane River Creole National Historical Park

Process_Description:

Two sets of boundaries were collected and compared. The main set was obtained from David Duran, who collected boundaries from each region in the summer of 2001. The second set was obtained from Dean Tucker, who digitized boundaries for the Horizon Project. The main set from David Duran was determined to contain the most recent boundary information. Parks missing from David's set were added from Deans set. Those parks are.....Antietam NB Arlington House,Benjamin Franklin NMEM, Big Hole NB, Catoctin Mountain Park, Chesapeake and Ohio Canal NHP, Chimney Rock NHS, Fort Point NHS, Fredericksburg NC, George Washington Memorial Parkway, Green Springs, Harpers Ferry NHP, International Peace Garden, John F. Kennedy Center for the Performing Arts, Kalaupapa NHP, Manassas NBP, McLoughlin House NHS, Monocacy NB, National Capital Parks - Central and East, Olympic NP, Prince William Forest Park, Rock Creek Park, San Francisco Maritime NHP, Thaddeus Kosciuszko NMEM, and Wolf Trap Farm Park for the Performing Arts. Park/Region staff were consulted for parks with major differences between the two sets.
