

Peachleaf Willow / Coyote Willow Woodland (Map Code 3)

Location: Only a few stands of *Salix amygdaloides* / *Salix exigua* Woodland occur within the Refuge. These were observed and sampled off the Hatchery Road near the boat ramp and in Wyasket Bottom.

Signature: The signature for this type is similar to the cottonwood map units. It appears as a dark red course stand. Mapping was based on known locations and field verification.
