

**Ouray National Wildlife Refuge Vegetation Mapping Project**

**Schockley's Buckwheat Badlands Sparse Vegetation [Provisional] Shrubland  
(Map Code 26)**

*Location:* Small stands/areas of exposed gravel and cobble support *Eriogonum schockleyi*; these occur on the toeslopes and hillslopes related to badlands bluffs.

*Signature:* This type had a signature similar to barren lands; white to blue with no texture. Most of the buckwheat was delineated by extensive field verification.
